## TESTIMONY IN M'DANIEL TRIAL NEARING ITS END

State Places Twenty-One Witnesses On Stand

Attorneys for Both Sides State One More Day Should Complete the Introduction of Evidence.

St. Joseph, Mo., Dec. 1.—Presentation of testimony in the trial of Prosecutor Oscar D. McDaniel, who is charged with having murdered Mrs. Harriet Moss McDaniel, his wife, neared its end in the criminal court here today when the state in its rebuttal placed twenty-one witnesses upon the stand. Attorneys for both sides said tonight that one more day should complete the introduction of evidence.

The state devoted most of its efforts today to an attempt to show that McDaniel did not receive a telephone call about 11:15 o'clock the night of the murder as he related on the witness stand which drew him from his home. B. L. Brown, division traffic superintendent; Miss Grace Boyer, chief operator; Miss Emma Maier, night chief operator; Miss Grace Miller, night information operator and four night operators of the local telephone company were placed on the stand and testified that so far as they remembered, no such call was made.

It was explained by each of the witnesses that many calls after 11 o'clock at night are diverted to the information operator so that wrong calls will not awaken patrons. The defense in an apparent effort to break down the declarations of the witnesses brought out that no written records of the calls were made and that the statements "were based on memory."

Miss Miller said that all calls diverted from the regular routine had gone to her that night and she was asked by Attorney General John T. Barker "did you handle any calls to the McDaniel home between 11 and 12 o'clock the night of July 14th, when Mrs. McDaniel was murdered?"

"I did not," she answered.

The testimony of Mr. McDaniel was that he returned home about 11 p. m., after having gone to a lodger meeting and investigated two alleged road houses. He awakened his wife, he said, but about 11:15 o'clock received a telephone call asking him to go to a certain saloon to get his brother. He left immediately discovered the call was a fake, according to the testimony and returned near midnight to engage in revolver duel and to find his wife had been attacked and beaten.

Miss Boyer testified under cross-examination that a call had come to the telephone office about 10:30 o'clock that night asking the names and numbers of saloons in a certain district. The saloon from which McDaniel said the fake call purported to have come was in that district, attorneys pointed out. Miss Boyer said she did not know where the call had originated.

Captain McLean said the navy had purchased 125 aircraft since the air service was established in 1911. There now are 19 aeroplanes and three kite balloons in actual service he said, while a non-rigid dirigible and 77 aeroplanes have been ordered. As yet, he said, American manufacturers have not turned out a satisfactory seaplane.

Captain McLean said the navy had purchased 125 aircraft since the air service was established in 1911. As yet, he said, American manufacturers have not turned out a satisfactory seaplane.

The primary submarine base of the fifth naval district would be established, he said, at the new site where deep water frontage would be available to provide for ten 100-foot docks for ships loading stores.

One of the most important features of the proposed station, the officer declared, would be a recreation ground which would provide the men of the fleet with proper places for athletic games.

In Galicia there also has been reawakening of activity. Petrograd records that an Austro-German attempt to take the offensive north of the Tarnopol-Zloczow railway was repulsed.

In Macedonia, in France and on the Austro-Italian front there has been no important change in the situation. The artillery activity on the Somme front in northern France and in the Trentino and Carso regions of the Italian theater is reported increasing. Berlin and Paris claim the repulse of attacks northwest of Monastir.

### The Way to Begin

The question of close relationship and better understanding between the U. S. and countries of South America has been a question much discussed. One of the best suggestions to bring about this understanding has been made by Ambassador Naon, who believes that a system of correspondence between the high school and academy pupils of Argentina and the U. S. should be established. The American peace society has taken kindly to Dr. Naon's idea and the plan gives promise of accomplishing much.

Closer relation in a friendly and commercial way between the United States and the republics to the south of us must be a growth and cannot come by any hurry up methods. It would be difficult to bring the older residents of the countries interested into much better understanding, but by beginning with the young people it is very possible to accomplish the desired intimacy and with good results, in a decade's time.

### Plant More Acres

A great demand for foodstuffs even tho present high prices do not continue for an extended period, emphasize anew the need for an increase in production. The work of the agricultural departments of our colleges and universities has been directed for years toward keeping up soil fertility and making greater crops grow on the same acreage.

Present conditions warrant still further attention to this very idea and it should be broadened out to include not only producing greater crops from the same acreage, but also to increase the acreage.

On the average Illinois farm the methods followed are not nearly as intensive as those in the eastern states or in European countries. This means that on every farm there is land going to waste because of careless methods in farming, or because the farmer is so comfortably fixed that he does not feel the need of going to the additional labor that would be necessary to cultivate some corner or strip of land not now producing.

But under present conditions every land owner has a duty to the public as well as to himself and if the farmers of this country will unite and follow out the slogan of greater and better crops they will not only have larger returns but will contribute materially to the general welfare by thus increasing the total of food stuffs offered to feed mankind.

As to the success with which he has filled his important position, the best evidence is found in the records of the party vote. In the election a few weeks since the party strength was double that recorded in 1912, and the state will be represented in congress by twenty six out of forty three members, whereas there were but eleven New York Republican congressmen in 1912.

**No Decline on Steel Prices Expected**  
That the railroads do not expect any special mercy from the U. S. steel corporation and allied concerns is shown by the fact that more orders were placed the past month than for any month during the past three years. This was true notwithstanding some other heavy orders given in the earlier months of 1916. It is costing roads more now for equipment than ever before but fortunately their earnings have been such that they have the money to pay. In 1914 business was at such a low ebb and the credit of some of the roads was in such poor condition that none of the big concerns wanted their orders.

The railroad that waits for lower prices before placing orders for equipment is likely to get in very much run down condition for the steel concerns have let it be known that they have received enough orders to keep their mills busy for several years to come.

### Congressional Plans

President Wilson has planned to push thru various pieces of legislation in the coming session of congress for fear that Democrats may

not have control of the next congress. The chances are that the presidential program will not be interfered with by the enforced prominence of questions relating to the high cost of living. Congressmen from all parts of the U. S. are headed for Washington after having it impressed upon them by their constituents that something must be done to relieve conditions. One of the first suggestions to be presented will be an embargo on foodstuffs and then the fight will start, for party lines will not rule this question, for an embargo would meet the most vigorous opposition from farmers and livestock producers and both Republican and Democratic congressmen are responsible to them.

The suggestion that the federal trade commission conduct a thorough investigation of the entire question, or that a special board congressional committee do this work will find favor of those whose views are not radical, and the president is understood to favor some such a proposition. But by the time any such investigation has been concluded prices will have returned to normal levels and the people will not be much interested in the causes that produced the high prices.

**In Humanity's Name**

Most Americans, no matter what their lineage or their leaning in the present war, will join with Rev. Randolph McKim, Episcopal clergyman of Washington, in denouncing as an infamous crime the reported wholesale deportation of Belgian civilians into Germany for involuntary labor. Dr. McKim will find support too, in his declaration that America now faces a "tremendous and fatal issue" and says further that the United States must "let her mighty voice be lifted for these myriads of helpless people being dragged into slavery. We need not plunge into the European war, but we must cease to be dumb spectators of this tremendous assault on liberty, civilization and humanity, and must speak in trumpet tones our indignation against it."

**Mr. Tanner's Good Record**

Frederick C. Tanner is soon to retire from the chairmanship of the New York State Republican central committee at his own request. Mr. Tanner has found the arduous duties of the position make too great demands on his time. His retirement, let us hope, does not mean a return of some of the New York political methods which prevailed before he was at the head of the party organization. Mr. Tanner and men of his type are interested in political and party organization not to seek their own advancement, but to make for the larger good of the people and the country.

As to the success with which he has filled his important position, the best evidence is found in the records of the party vote. In the election a few weeks since the party strength was double that recorded in 1912, and the state will be represented in congress by twenty six out of forty three members, whereas there were but eleven New York Republican congressmen in 1912.

### Our Destination

The poorhouse has no Persian rugs, no costly chandeliers; and there we'll dwell and chase the bugs away in our declining years. On bread and meat and spuds and pie there's an unhappy price; the cost of coal has gone so high the poor are burning ice. The butchers used to give away the liver of the cow; today they wrap it up and say, "Cough up a quarter now." The poorhouse has no movie stage, no joyous minstrel troupe; and there we'll spend our winter age, and live on cabbage soup. When o'er the daily sheet we glance, we drop it with a frown; the price of everything's advanced, and nothing has gone down. The printer howls because his stock more precious is than gems; the tailor weeps with tears the frock which drearily he hemmed. Man wears his sweater in his bed, because he has no shirt, and cries aloud, while seeing red, "Oh, what do we drift?" The poorhouse has no plutocrats, no closed or open cars; and there we'll dwell and swat the rats until we climb the stars.

### LONDON LEAVES BULK OF ESTATE TO WIDOW

Asked Specifically that the Document be not Probated—Gives His widow \$5 and the House in Which She Resides.

Santa Rosa, Cal., Dec. 1.—The will of Jack London, the California author who died at Glen Ellen, near here on November 22nd, leaves the bulk of his estate, on which he placed no value, to his widow, Charmion K. London. The will was filed today in the superior court here and bore the date May 24th, 1911. London asked specifically that the document be not probated and requested that letters testamentary be issued to his sister, Mrs. Eliza Shepard and William L. Growall.

By its terms his divorced wife, Mrs. Bessie M. London is given \$5 and the house in which she resides in Oakland, Cal., until she "marries again" when it reverts to the estate. London's two children by his first marriage Joan and Bess London are bequeathed \$25 a month each and his life insurance policy, the amount of which was not made public.

Another provision of the will was the request that "my two daughters Joan and Bess be personally housed and cared for by my beloved wife Charmion of whose witness and goodness I am confident."

Small bequests are left to his mother and sister.

### FIND EDITOR NOT GUILTY

### ABANDON SALE OF TREASURY BILLS

Morgan & Co., Acts at Request of the Allied Governments

New York, Dec. 1.—The abandonment by J. P. Morgan & Co. of the proposed sale of a limited amount of short term British and French Treasury bills at the request of the entente allied governments, announced here today came as a surprise to the financial community. The announcement issued from the Morgan offices stated that that action of the British and French governments was taken out of regard for the unfavorable attitude adopted toward the sale by the federal reserve board.

Other plans to finance the pressing needs of the British and French governments are already under way, it is understood but they have not yet reached a definite stage. A member of the Morgan firm informally stated that no other plans had been formulated, but it was learned from reliable sources that the denial had been made as a matter of policy. The plan under contemplation, it is estimated, will involve a large amount of "dollar credits" as assessable to Great Britain.

British institutions and private investors still retain large amounts of American securities altho they have been largely mobilized by the British treasury. There have been no cancellations of orders for war supplies than for any other kind of materials to the countries of the entente allies, according to the bankers' acting for those interest and no appreciable demobilization of orders is expected.

The British government continues to hold large reserves of gold in Canada and the more remote colonies and these reserves, it is believed, will be employed to meet immediate exigencies, including stabilization of exchange.

#### DRAWS NO OFFICIAL COMMENT.

Washington, Dec. 1.—Withdrawal of the British and French treasury bills by J. P. Morgan & Co., with the statement that it was done at the direction of the respective governments and out of a "desire to show every regard to the federal reserve board," created much interest in government circles but drew no official comment today further than a reiteration at the state department that the reserve board's action was merely a matter of domestic concern.

### EXTEND TIME FOR TAKING OF OATH

Action is Taken to Permit Military Officials to Settle Dispute

Springfield, Ill., Dec. 1.—The extension of time for national guardsmen to take the federal enlistment oath under the new national defense act from November 30 to December 31, was made to permit Illinois officials and the judge advocate general of the United States army to settle a dispute as to the effect of the federal oath, according to Adjutant General Dickson, who returned today from Washington.

The judge advocate contends, General Dickson said, that if the guardsmen do not take the oath that they will not be considered members of any organized military body and consequently the state's share in federal military funds will be decreased.

Illinois officials assert that the oath of enlistment in the national guard of this state is so worded that the men are national guardsmen of the period of their unexpired term even though they do not take the federal oath.

The national guard oath binds the militiamen to support the constitution of the United States. This, said General Dickson, is sufficient to give them recognition by the federal government.

A majority of the Illinois guardsmen have not taken the new federal oath. The state's policy will be decided in a few days, according to General Dickson.

### TO COMPLETE INAUGURATION PLANS

### THINK ENGLAND WILL RE-CONSIDER REQUEST

London Thinks Great Britain Will Grant Request of Washington

London, Dec. 1.—A strong impression prevails here that Great Britain will grant the request from Washington for a re-consideration of the refusal of a safe conduct for Count Adam Tarnowski Von Tarnow, who recently was appointed Austro-Hungarian ambassador to the United States.

Altho stating that he had not yet seen the Washington request, Lord Robert Cecil, minister of war trade, in discussing the question with the Associated Press correspondent said:

"It must be kept in mind that the question presents two entirely distinct phases. The first is that of belligerents to whom we could not extend favor under any circumstances."

The other phase concerns a friendly neutral, like the United States, to whom we are ready to grant any favor which does not violate our imperial necessities.

To grant safe conduct to Count Tarnowski, for which there are precedents, may fall within the latter phase but it is a difficult question about which it would be dangerous to prophesy."

The American request has been presented directly to Viscount Grey, secretary of state for foreign affairs. Early action is expected but some time may elapse before it is taken as the French government must be consulted.

### RENEWS CAMPAIGN FOR FIRE PROTECTION

SPRINGFIELD, Ill., Dec. 1.—With the statement that only "thru the fortunes of providence" has Illinois been spared thru the tragedy of a school fire such as occurred at Collinswood, O., several years ago, when 175 school children were burned to death, Walter H. Bennett, state fire marshal, today renewed his campaign to remove fire hazards from the schools of the state.

The department has been making a campaign with the idea of enforcing the school house sanitation and safety law.

As an example of possible benefits from the campaign a recent school fire in Springfield.

Last April the department made a survey of Springfield schools. The inspectors recommended that at the Ridgely school an incombustible roof should be substituted for the shingle roof. The school authorities, says Mr. Bennett, were not in accord with the recommendation and nothing was done. On November 15 the school was burned. Only the fire drill saved many children from death. The fire was caused by sparks on the shingle roof.

### CHICAGO CLOTHING WORKERS GET RAISE

CHICAGO, Ill., Dec. 1.—Chicago clothing workers, heretofore paid on a fifty hour weekly wage scale, will be paid the same wages for 48 hours work beginning today. Jacob Abt, president of the Chicago Wholesalers' Clothiers' Association announced. He said the reduction in working hours means more than \$1,000,000 additional yearly will be paid employees. Beginning today also \$2.50 will be the average daily wage in the Chicago plants of Armour, Swift and Morris packing companies.

### MAY NOT OPEN LODGING HOUSE

CHICAGO, Dec. 1.—For the first time since it was established, 15 years ago, Chicago's municipal lodging house may not be opened this year. The home has been closed since May 13 and, according to figures made public today, 37,349 lodgings were given to 3,711 men between January 1 and that date.

1917 POULTRY SHOW  
THANKSGIVING WEEK

Date Set at Meeting of the Executive Committee Friday Evening—Sunday Will be Big "Free Day."

The poultry show next year will again be held the week of Thanksgiving, it was decided Friday evening at a meeting of the executive committee of the Morgan County Poultry association, D. T. Heinrich of this city will be the judge. The work of foreign judges, employed recently, has not given the best of satisfaction and at the meeting Friday evening the sentiment for employment of Mr. Heinrich seemed unanimous.

Decision was made to keep the show open Sunday and on that day to make admission to the public free. This will continue the show for one day longer than expected, but inasmuch as most of the birds could not be removed until Monday, the idea was conceived of giving the public the benefit. The hours Sunday will be from 9 a. m. to 5 p. m.

The Elliott State Bank, c. o., offer for the best display of White Ply.

The entire show was won by George W. Hamilton & Son of this city. The executive committee awarded the Henry J. Rodgers cup to James Vail, for the best display of White Ply-

mouth Rocks. Judge Heyl had first given Mr. Vail the highest score, and later had reversed his decision, and after reviewing the matter the committee held that the first decision should stand.

Much interest has been shown in the drawings each evening at 7 o'clock. Tonight Rhode Island reds from the Clary pens, will be given away. Friday Dr. Edward Gove was the lucky winner of a pen of fine White Leghorns. This afternoon at 4 o'clock there will be a special drawing for children and two pairs of Bantams will be given away. Children accompanied by parents will be admitted free.

Among recent visitors in the show room have been F. A. Laird of Auburn, the largest individual exhibitor, Fred Strupper of St. Morris, Ill., and L. T. Wood of Carrollton, secretary and treasurer of the Greene County Poultry association. Mr. Wood remained in the city for a Thanksgiving visit with secretary and Mrs. J. C. Weber.

## SUCCESSFUL CAMPAIGN

A successful campaign to raise an endowment fund of \$600,000 for the Southwestern college, at Winfield, Kansas, has just been completed with a margin of \$65,000. Dr. J. W. Hancher, so well known here, was the director of the campaign. Dr. J. R. Harker was one of a number of Methodist college presidents who spent a large number of days assisting in the work. Dr. Hancher has taken place as one of the most successful experts in this line of work, the wisdom and enthusiasm he manifests in campaign work having a large effect on the success of the effort.

It is related that when the trustees of Southwestern college first planned an endowment fund they hesitated about attempting to raise \$150,000 and after their conference with Dr. Hancher they were imbued with the idea that they instead should undertake the task of raising \$600,000.

The musical show, "Watch Your Step," drew a very large audience to the Grand Opera House Friday night. The play, which had very successful runs in New York and Chicago, is much after the type of the Ziegfeld's Follies. There are fifty or more people in the cast and the several acts proved very entertaining. As the name indicates, the several acts were made up mainly of musical numbers and dance specialties.

COL. ROBERTSON HAS  
REPORT FROM HIS RANCH

Federal Inspector Spent Several Days There and Declares Cattle Do not Have Foot and Mouth Disease.

Colonel John R. Robertson received information Friday from the manager of his ranch near Waukon, Neb., stating that there had been no outbreak of the foot and mouth disease there. Some days since dispatches stated that a shipment of cattle from the Robertson ranch had been held in Kansas City upon the belief that they were infected with the disease. A federal inspector was immediately sent to the ranch and found that a number of horses and cows had sore mouths. All the horses, cattle and hogs on the ranch were kept under observation by the inspector for a number of days. It was then found that the cows and horses showed no further development of the mouth affection and no evidence of the disease in their feet. As the inspector put it, there were no lesion developments and it was therefore his opinion that the cows had ulcerated mouths but that the cases could not be classed as the foot and mouth disease.

A further reason for the decision that the ailment was not foot and mouth disease was that this disease is never known to appear in horses while the mouth affection on the Robertson ranch was found in both horses and cows. Colonel Robertson when he received the first information of a suspected case felt there had been some mistake as no cattle had been shipped to the ranch since March and there had been no horses or hogs received. It was of course a matter of great satisfaction to Colonel Robertson to receive the definite information that the suspected disease does not exist on his property. He has quartered there 200 head of cattle, 700 hogs, about 50 horses and it can readily be seen that an outbreak of the foot and mouth disease would mean serious loss.

The ideals of mutual helpfulness and team work were mentioned and the afternoon proved profitable as well as interesting for the many students, former students and guests in attendance. Dr. Joseph C. ## ROUNDING INTO FORM

"Snapshots" Almost Ready for Presentation—Players Practicing Very Hard.

"Snapshots" will be given its final tryout this morning before the final race on next Monday evening at the Grand. Thanksgiving was a day of rest for everyone and the "actors" all insisted on a holiday which was granted. The seat sale which opened this morning was exceedingly lively and demonstrates that much interest is being displayed in the future of our Free Kindergarten. Unless sufficient funds can be raised by "Snapshots" it is likely that the school must close for the remainder of the year but the kindergarten

board has confidence in support of Jacksonville citizens. Many school children who have little brothers and sisters attending the small school have been especially active and a large fund has been raised from this source. A first and second prize has been offered to the children for the largest number of tickets sold and the prize will be announced next Monday at David Prince school. The children will be allowed to sell all day Saturday and it is hoped that much revenue will be realized.

The condition of Albert Metcalf is growing alarming to his friends. He has practiced the part of "Mr. Beatman" so long and earnestly that his sense of hearing seems to have left him. Everyone is hoping that he will assume his natural condition

immediately after the play is given on Monday evening.

## F. C. TANNER TO RETIRE AS N. Y. STATE CHAIRMAN

Republican Committee Work Takes  
Too Much Time from Law Practice.

Frederick C. Tanner has issued an announcement in New York telling of his desire to resign as chairman of the New York Republican state central committee. In a letter to members of the committee Mr. Tanner says that the demands of his law practice make it impossible for him to longer devote himself to the engrossing duties of state chairman. He expresses the belief that the Republican victory in the Empire State at the recent election was due primarily to the belief of the people that their own interests are best safely guarded and served by the Republican party.

As a second reason for success the retiring chairman refers to the harmony which has existed in New York, where minor differences have been buried and a solid front presented to the enemy. This was made possible, he said, by the hearty support of the thousands of election district workers who receive but little honor or praise for the very effective work they do.

Mr. Tanner gives figures to show the increase of the party's power during four years. In 1912 there were forty-two Republican assemblymen and in 1916 one hundred. In 1912 there were seventeen state senators and there are now thirty-six.

In 1912 there were eleven Republican congressmen and now the figures are twenty-six. Some other facts are given with the evident desire on the part of the retiring chairman to as he says "give an account of his stewardship."

### THOMAS J. HOOK DIED VERY SUDDENLY

Former Business Man Here Found Dead in Bed—Burial Will be at Diamond Grove cemetery.

M. C. Hook received a telegram Friday telling of the death of his uncle, Thomas J. Hook, at Malfvern, Pa., where he had been for some time there with his sister, Miss Frances Hook. The telegram stated that he had been found dead in his bed Friday morning. For a number of years Mr. Hook was in failing health and his death was due to a stroke of paralysis suffered some time since.

Mr. Hook, who was the son of Mr. and Mrs. Cornelius Hook, was born in this city in 1841. After completing his school work he was for a number of years employed in the store of David Robb and subsequently engaged in the dry goods business on his own account under the firm name of T. J. Hook and Co. The first location was in the Chambers block (on the north side of the square) and the last on the west side in the building now occupied by Lukeman Bros.

After retiring from business here about twenty five years ago Mr. Hook lived for some time in Denver, where he had mining interests. Still later he was associated with his brother, the late William S. Hook, in the operation of the properties of the Los Angeles Traction system. After selling his property interests there he became a resident of Omaha, where he has spent recent years. Mr. Hook is survived by his sister, Miss Frances Hook, and several nieces and nephews, including Marcus C. Hook and Mrs. Mary H. Alexander of this city.

The remains are to arrive in Jacksonville Sunday and will be taken to the undertaking rooms of John G. Reynolds. Notice of the funeral time will be made later. Interment will be in Diamond Grove cemetery.

## PEOPLE'S HOME RESIDENT PAYS INSTITUTION TRIBUTE

"Uncle Ed" White is pleased With Home Here—Traces Ancestry to the Pilgrim Fathers—Long Time Republican

One of the residents of the Old People's home who is highly esteemed by his associates is Uncle Ed White, who has been a resident here for about nine months. Mr. White, who is more than eighty five years old, is remarkably preserved and he writes an excellent hand and is able to both read and write without the aid of eye glasses.

To Mr. White belongs the credit of being one of the original members of the Republican party, as he voted in 1854 for G. S. Orth, who was elected a member of congress from the Lafayette district in Indiana, in 1860 Mr. White was a delegate to the Republican state convention that nominated Henry S. Lane for governor, O. P. Morton for Lieutenant governor and Benjamin Harrison for supreme court reope.

53 of them were elected and for the first time the party succeeded with a full state ticket and secured a majority of members of the legislature.

Mr. White recently wrote a letter which was printed in the Christian Philanthropist, a paper published by the National Benevolent Association of the Christian church. This was reprinted in the Greensburg (Ind.) Review and has been sent to the Journal for publication. Mr. White is the oldest former official of Decatur county, Ind., having held the office of recorder there in 1859. The letter follows:

My age is 85 1/2 years. My father and mother were natives of New England. On my father's side I am of the seventh or eighth generation of one of the Pilgrim fathers who came over in the Mayflower. Perrigrin White, whose father was one of the Pilgrims, was the first white child born in Massachusetts colony. I am the sole survivor of my father's family of nine children.

I was married when a few months past twenty years old, and five dear, sweet children were given to us to love and cheer us for a short period. They were all taken from us in infancy, and lastly my good wife and homemaker for more than sixty years was called to join these loved ones in our Father's House of Many Mansions. Now of all that circle only I am left. How strange it seems with so much gone of life and love and still to live on alone.

"One year ago I was taken down by a serious illness in the city of Madison, Indiana, where I was then a stranger, and was taken to the King's Daughters' Hospital, and after being skillfully treated and lovingly cared for during a period of five months, was then able to come to this blessed Christian Home in Jacksonville, where I received a warm reception. I am enjoying all the comforts of a real home, the care of a skillful physician, and the watchful and loving ministry of "little mother" (our matron), and the nurse. It has been, to me, months of real happiness. Here I am free from care and anxiety concerning the future, here and hereafter. Words on paper cannot convey to the reader my heartfelt thanks and gratitude for the blessing I am enjoying. Every one connected with this Home has made me realize what Christian love is.

"How was I able to come here? Long illness had used up my last dollar there when in the hospital. The loyal, loving, generous Disciples, beginning with Brothers Z. T. Sweeney and Wm. H. Book, of the Tabernacle church at Columbus, Indiana, and the members of that church; and also the members of my home church at Greensburg, Indiana, where I became a member fifty-nine years ago, made it possible for me to come to this beautiful home.

"I am thankful that my mental powers and memory are only slightly impaired, and I relish life almost as keenly as ever. We should and do look more often at the rainbows than at the dark clouds, and when we think of all the blessedness that we shall enjoy in the near future as we draw nearer the sunset of life, we see a ray of glory becoming brighter and brighter as our days on earth become fewer.

### HELEN CLARK POPULAR CONCERT CONTRALTO

Some time ago it was learned that an endeavor was being made in musical circles in this city to arrange for a New Edison tone-test, the musical and scientific demonstration that has been attracting so much attention in the musical centers of the United States in recent months. It is now announced that, thru the courtesy of Mr. Edison, the music lovers of this city will be given the opportunity to hear one of these unique tests and that Miss Helen Clark, the noted contralto, will be the artist sent here by him to take the principal part in the demonstration. Many prominent musicians already have received invitations to the affair which will be held in Centenary M. E. church, Wednesday evening, December 6th at 8:15 p. m., and to which admission will be by invitation only.

Miss Clark is one of the most prominent concert contraltos in the country and her appearances are included among the musical features of the season in the largest musical centers. Her voice is a magnificent contralto that ranges into a mezzo-soprano and it has a wonderful clarity and charm. The beauty of her voice alone would be sufficient to make her renowned among vocal artists and the fact that she combines it with musical intelligence of the highest order entitles her to a foremost place among America's concert contraltos. In addition to her other qualifications, she has a most charming personality—a personality that has been a factor in gaining her the favor that she enjoys. Her appearance here is, in itself, a notable event and the fact that she comes as an emissary of a new art, lends the interest in which she will appear a rare distinction.

A most distinguished audience will greet the charming young singer when she appears in Centenary church according to the interest that is being manifested in the coming affair.

## I. C. MEN CLOSED SEASON WITH BRILLIANT VICTORY

Won Thanksgiving Day Game From  
Southern Illinois Normal 28 to 0  
—Coach Harmon Gave All His  
Men a Chance.

Illinois College closed the 1916  
football season Thanksgiving day by  
defeating Southern Illinois Normal  
on Illinois field by a score of 28 to 0.  
Illinois' first score came within  
five minutes of play, Spink carrying  
the ball over and Conklin kicking  
goal. Normal then took a brace and  
held Illinois scoreless the remainder  
of the quarter.

It was rather a patched up team  
that Coach Harmon sent on the field.  
On Wednesday afternoon Capt. Cris-  
tie while trying to jump on the run-  
ning board of Coach Harmon's auto-  
mobile, missed his footing and his  
foot went under the car the wheel  
running over the instep. In spite  
of this fact and that "Fritz" was  
compelled to hobble about on one foot  
he got in the game in the last two  
minutes of play and received a for-  
ward pass.

Coach Harmon gave nearly all of  
his men a chance to get in the last  
game of the season. Fanning and  
Reiffel played the ends in splendid  
fashion and their work was such  
that Coach Harmon need have no  
fear of the end positions next year.  
Wilson, Pierce, Jones and Spink  
made great holes in the visiting line  
and Mitchell closed his Illinois Col-  
lege football career in a blaze of  
glory. Mitchell did everything. He  
received forward passes, ran with the  
ball and on defense it was like hit-  
ting a stone wall when the visiting  
team tried his side of the line. In  
fact all of the team played good hard  
football.

Normal had a good football team.

Are you keeping your bowels clean

Cascarets work while you sleep;  
cleanse the stomach, remove the

eat right into the toe and make it  
raw and sore. I still use masters  
that make the corns burn or tickle

"BOBBY" QUINN RESIGNS  
Columbus, O., Dec. 1.—James A.  
(Bobby) Quinn, business manager  
and secretary of the Columbus  
American association Club since  
1902 today tendered his resignation  
to the directors of the local club. He  
is expected to become identified  
with one of the major league clubs  
either as scout or business manager.

Coch McAndrew was handicapped  
by injuries which kept some of his  
best men out of the lineup. How-  
ever, the men were game and never  
quit laying until the last whistle.  
They put up a stubborn defense and  
time and again kept Illinois from  
crossing the goal line. A. Boswell,  
E. Boswell, Hale and Schwartz did  
brilliant playing for Normal. It was  
their work that made most of the  
gains for the visitors.

**First Quarter**  
Illinois kicked to Normal on the  
ten yard line and downed the run-  
ner on the 25 yard line. Normal  
made five yards on the first play a  
line buck. Then two more attempts  
to gain failed and Normal punted to  
Whistler in the center of the field.  
Spink made nine yards thru the line  
and then failed to gain and Pierce  
made it first down on a line plunge.  
Then with Spink, Pierce and Wilson  
carrying the ball it was worked  
steadily down the field. Spink finally  
going over for the touchdown. Conklin  
kicked goal, score Illinois 7, Normal 0.

Illinois again kicked off to Normal  
on the five yard line and the ball  
was carried back to the 25 yard  
line. Normal made nine yards on  
two downs and then lost on an  
attempted end run. Normal fumbled  
and Illinois recovered. Spink tried  
the line without a gain and on the  
next play he fumbled the ball and  
Normal recovered it on her own 49  
yard line. Normal was unable to  
penetrate the Illinois defense and  
punted to Whistler on Illinois' 25  
yard line. Spink and Pierce made  
first down on three tries. Pierce  
then made five yards around the end.  
A forward pass failed and Wilson  
then went thru tackle for first down.  
Spink made two yards and Normal  
was penalized five yards for off side.  
Wilson then circled the end for 29  
yards. Pierce made four yards thru  
the line and Fanning added five on  
an end around play. Spink made it  
first down thru the line. Illinois  
gained five yards and then got her  
signals mixed and lost the ball on  
downs. Normal was unable to gain  
and punted to Pierce on Normal's 40  
yard line as the quarter ended.

**Second Quarter**  
At the beginning of the second  
quarter Wilson passed 30 yards to  
Mitchell who carried the ball to the  
five yard line before being downed.  
Spink on two line plays put the ball  
over for a touchdown. Conklin  
kicked goal. Score Illinois 14, Normal  
9.

Illinois kicked to Normal and  
downed the ball on the 15 yard line.  
Normal then made her first down of  
the game on two tries at the line.  
Illinois' defense then stiffened and  
Normal lost the ball on downs.

Illinois gained eight yards and then lost  
three yards on a fumble. Wilson  
then passed to Mitchell for 28 yards  
and Mitchell put the ball on Normal's  
12 yard line. Illinois fumbled and  
Normal recovered the ball on her  
own eight yard line. Normal  
punted to Wilson who was downed  
on Normal's 35 yard line. Wilson  
made 20 yards around the end.  
Pierce hit the line for nine yards and  
Spink made it first down. Spink  
carried the ball over but Illinois was  
offside and the ball was put in play  
on the five yard line. Pierce failed  
to gain on a line play. Jones went  
to Spink and hit the line for a  
yard. On the next play Mitchell on  
a tackle around carried the ball over.  
Conklin kicked goal. Score Illinois  
21, Normal 9.

The ball was worked up and down  
the field the remainder of the quarter,  
most of the playing being in  
Normal's territory. The half closed  
with the ball in Illinois possession.

**Third Quarter**  
Illinois kicked to Normal on the  
five yard line and downed the run-  
ner on the 15 yard line. Normal  
was unable to gain and punted to  
Whistler who was downed in the center  
of the field. Pierce and Wilson  
made first down. Pierce made five  
yards around the end. Jones then  
made three yards thru the line.  
Reiffel made five yards on an end  
around play. Jones made another  
first down on three line plays. Wilson  
made two yards and then carried  
the ball on the next play to the goal  
line and Jones went over for a touch-  
down. Conklin kicked goal. Score Illinois  
28, Normal 0.

The remainder of the game was a  
seasaw affair. Normal put more  
"pep" into her offense and carried  
the ball with fair success. They  
lacked the punch, however, and never  
threatened Illinois' goal line. During  
the fourth period Coach Harmon  
sent in a number of second string  
men and all gave a good account of  
themselves and held the Normal men  
easily.

## JACKSONVILLE HIGH CLOSES GOOD SEASON

Won Fast Game From Roodhouse  
Thanksgiving Day by Score of 20  
to 6—Hufford's Men in Good Form

Jacksonville closed its season in  
a blaze of glory Thanksgiving Day by  
defeating Roodhouse on her own  
field by a score of 20 to 6. The  
Roodhouse team was built around  
one man, Arnold, who played quar-  
ter. Arnold has been playing half  
but the quarter got hurt and he took  
that position. He proved a great  
player and gained practically all of  
the ground for his team and scored  
the only points made.

All of Coach Hufford's men played  
great football. Roodhouse had  
heard of the Reynolds boys and had  
built a defense that made it difficult  
for them to gain on end runs. However,  
they hit the line hard as did Hull, Johnson, the big colored  
boy of the local team played a great  
game. The Roodhouse team gave  
him a great deal of attention and  
played a rough game with him. However  
he did not seem to mind it and  
time and again tore up the line  
for gains and made two of the local's  
touchdowns. In the third quarter  
Howard Reynolds was knocked out  
and Green went to quarter and Reeve  
went to half.

When the game started Roodhouse  
received and carried the ball to the  
Jacksonville 30 yard line. Jacksonville  
held and carried the ball by end  
runs, line plays and forward passes  
down the field, Reeve going over for  
a touchdown. Hull kicked goal. Roodhouse  
again received and a forward pass  
put the ball in the center of the field.  
When the second quarter started  
Firke passed to Ferguson for 30  
yards. Jacksonville then attacked  
the line Johnson finally going over  
for the touchdown. Hull kicked  
goal. When the half ended the ball  
was in possession of Roodhouse on  
Jacksonville's 35 yard line.

When the second half opened  
Jacksonville kicked to Roodhouse  
and took the ball on downs and carried  
it to Roodhouse's 20 yard line where  
Roodhouse held. Roodhouse then played  
some good football. A long end run and a forward pass put  
the ball within striking distance. The  
goal was missed.

Jacksonville received and carried  
the ball to the Roodhouse 50 yard  
line. Hull tried a place kick which  
failed. Roodhouse put the ball in  
play on her own 20 yard line. Roodhouse  
then showed the best attack of  
the day and carried the ball down  
the field to Jacksonville's 15 yard  
line. Jacksonville tightened and held  
for down. They tried two forward  
passes which failed and were given  
a penalty placing the ball in the  
shadow of the goal posts. Molohon  
punted and the punt was one of the  
longest ever made on a football field  
rolled over the Roodhouse goal line.

Roodhouse put the ball in play on  
her 20 yard line. Roodhouse fumbled  
and Arter recovered for Jacksonville.  
Hull made a forward pass to  
Howard Reynolds and then a series  
of line backs put the ball within  
striking distance and Johnson went  
over for a touchdown and Hull kick-  
ed goal.

Howard Reynolds was knocked out  
on a tackle and Reeve went to half  
and Green to quarter. During the  
fourth quarter the ball seesawed  
back and forth. Roodhouse played  
hard and carried the ball down the  
field toward Jacksonville's goal.  
Homer Reynolds intercepted a forward  
pass when it looked as tho  
Roodhouse would score. Jacksonville  
then started with a rush and carried  
the ball down the field and Hull lacked  
four inches of a touchdown when  
Roodhouse held for down.

association issued a call tonight for  
the annual meeting of the association  
to be held in Indianapolis, Ind., on De-

be placed before the club owners is  
the election of a president. There  
is reported to be opposition to the  
re-election of Mr. Chivington.

Norris L. "Tip" O'Neill, former  
president of the Western League and  
Thomas Hickey of St. Paul have been  
suggested as probable candidates for  
the presidency.

**NATIONAL COMMISSION  
MEETS TODAY**

Chicago, Dec. 1.—Adoption of a  
new form of players' contract is the  
chief business before the special  
meeting of the National Baseball  
commission here tomorrow.

President B. B. Johnson of the  
American League announced tonight  
that a contract which he believed  
to be equitable to the players and  
club owners had been drafted and

JESSE BURKETT THROUGH

Worcester, Mass., Dec. 1.—After thirty years of pastime, Jesse Burkett, one of the last surviving veterans of the "old guard" of baseball, has announced his definite retirement from all active connection with the game. Next Monday Burkett will celebrate the forty-sixth anniversary of his birth, having been born in Wheeling, W. Va., Dec. 4, 1870.

When in his prime Burkett was one of the star slingers of the game, and at the age of forty he was still able to hold up his end on the diamond. He began playing professional ball as a pitcher with the Scranton team, when but 16 years old. It didn't take the Scranton manager very long to discover that twirling was no business for Jess. So he was shifted to the outfield where he developed into one of the greatest hitters of all time.

After two years with Scranton he came to Worcester. From Worcester he went to the Giants and by that club was farmed out to the Western league team. In 1891 he was sold to Cleveland and it was in the Ohio city that he started his brilliant career in the big leagues. He remained with Cleveland until the amalgamation with St. Louis in 1899. He pastime with St. Louis through 1901 and the next season went over to the newly formed American league club of that city. In 1905 he joined the Boston Red Sox and at the end of that season brought his major league career to a close.

But there was still a lot of 18K pastime in Burkett's system and he returned to Worcester to become part owner and manager of the local club. As a minor league manager he duplicated his success as a player in the big leagues. During the ten years he piloted Worcester his team never finished outside the first division. For four successive seasons, from 1906 to 1910, he won the New England league pennant.

For several years Burkett played regularly with his Worcester team and his stick work—the same old heavy clouting that put him over the .300 mark for eleven years in the majors—won many a game for his outfit.

LIBERTY'S TORCH TO

GLOW AGAIN

New York, Dec. 1.—Tomorrow will usher in the annual observance of "American Electric Week," for which corporations and individuals prominent in electrical enterprises throughout the country have been preparing for many months. The celebration will be conducted along the same general lines as the initial observance last year, but will take on a much wider scope. Through the medium of extensive advertising, electrical pageants, and brilliant illuminations an effort will be made to bring home to persons in every town and city of the United States the increasing adaptations of electricity in human effort, both in peace and during war.

In New York the celebration is to be marked by the re-lighting of the great torch of the Statue of Liberty, which has been dark for many years because of the lack of a Federal appropriation to make necessary changes and cover the cost of maintenance. Through public subscription a fund has been raised sufficient to install a new lighting plant and a system of electric lights that will flash their rays many miles out to sea.

NEW RULES ON SPIRITS IMPORTS

Washington, D. C., Dec. 1.—American importers of spirits from Great Britain have been notified by the Department of Agriculture that after today shipments offered entry to this country will be refused admission unless accompanied by a certificate from the British excise authorities that the goods meet the requirements of the English immature spirits restriction act of 1915. This act provides that no British or foreign spirits shall be delivered for home consumption unless they have been warehoused for a period of at least three years.

SALVATION ARMY SERVICES

A cordial invitation is extended to all to attend the services at the Salvation Army this evening. An interesting program will be carried out consisting of instrumental and vocal numbers. The program will be impromptu but it is assured that it will be a good one. No admission will be charged but it is desired that each person bring a pound of something worth ten cents or more per pound. These will again be sold at ten cents each. Everyone has the privilege to bring as many pounds as they desire and also bring your dimes to buy the packages.

The Sunday services will be as follows: Services at 11 a. m., Sunday school at 2:30 p. m., J. P. L. at 6:30 p. m., and Salvation Army services at 8 p. m.

D. O. K. K. CEREMONY

POSTPONED

The ceremonial session of the D. O. K. K. which was announced for Tuesday evening, December 5, has been postponed until some date yet to be chosen in January. This action was taken because of December being such a busy time and it was decided that the pre-holiday days would not afford near the opportunity for a successful session as the later time. The date will soon be announced.

STATE STREET CHURCH

BIBLE CLASS

The new pastor, Rev. R. B. Wilson, of State street church, has consented to take charge of the Bible Class of the Sunday school connected with the church and great efforts are being made to recruit a good sized organization for that purpose. The gentlemen are fortunate in securing a desirable teacher.

# Again for \$1—While They Last

## This Guaranteed Aluminum Cooker

The cost of Aluminum has doubled since we ordered these lifetime Cookers. At present prices, this offer would be impossible. So, in all probability, after our supply is exhausted, it cannot be made again.

Next week the grocers of this city will once more feature this Quaker Cooker offer. And for the last time, we believe.

We have supplied Cookers now to over 1,000,000 homes. We have supplied these guaranteed Aluminum Cookers for \$1 to Quaker Oats users. But this offer ends with our present supply, and probably forever. Unless Aluminum drops 50 per cent, we cannot again offer a Cooker like this for \$1.

But next week only we make the offer below. You can get this Cooker for \$1, by buying two of our cereals which should be cooked in it.

This offer is made to induce better cooking. To bring you Quaker Oats and Pettijohn's cooked in perfect form, with the flavor kept intact. Our reward will come in your doubled delight in these foods.

We ask the trademarks just to show that you use our cereals. Unless you have the right flakes, right cooking does not help much. But, if you use Quaker Oats and Pettijohn's, this cooker is yours for \$1. This is for one week only. Get the packages from any grocer named below.

Pure Aluminum  
Extra Large and Heavy  
Cereal Capacity 2 1/4 Ots.  
A Lifetime Utensil

# One Week Only—Your Last Chance

## Our Offer is This:

Send us two trademarks cut from packages of Quaker Oats and one trademark cut from a package of Pettijohn's—the picture of the Quaker on the front of the Quaker Oats package and the picture of the Bear on the front of the Pettijohn's package—or, if you prefer, you may send us five trademarks from Quaker Oats alone. Send us \$1 with these trademarks and we will mail the cooker by parcel post. Trademarks must be mailed next week. This offer applies in this vicinity only. Address

The Quaker Oats Company, 1708 Railway Exchange, Chicago

## Quaker Oats

### The Extra Delicious Vim-Food Flaked from Queen Oats Only

All the world over Quaker Oats holds first place among oat foods. Oat levers of a hundred nations send to us to get it. A billion dishes are consumed each year. Nowhere in the world do connoisseurs find any oat peace to compare with it.

The reason is this: Quaker Oats is made from queen grains only—just the big plump luscious oats. No puny starved grains are included. A bushel of the choicest oats yields only ten pounds of Quaker.

The result is a flavor which has won the world—a flavor which is matchless. Yet these large and luscious flakes cost you no extra price.

Nature stores in oats a wealth of vitality, which everybody needs. We want you to know this fascinating vim-food, made as we make it and cooked in our way.

## Pettijohn's

### Rolled Wheat with 25% Bran Flakes A Modern Bran Dainty

Every doctor advises bran as essential to right living. It is Nature's laxative. Everybody every day should eat it. It means better health better spirits sunnier days. Without it our diet of fine food forces folks to drugs.

Pettijohn's is made to meet doctors' requirements. The bran is hidden in flavor flakes of wheat. The food is a morning dainty which everybody likes. Yet it contains 25 per cent tender bran.

The bran is in flake form, which makes it doubly efficient. Ground bran will not do.

Try Pettijohn's one week. Note its delightful effects. Never again will you go back to a brainless diet.

Then try Pettijohn's flour. It is 75 per cent fine patent flour mixed with 25 per cent bran flakes. Use it like Graham flour in any recipe.

A CLEAR COMPLEXION  
Ruddy Cheeks—Sparkling Eyes  
—Most Women Can Have  
Says Dr. Edwards, a Well-Known  
Ohio Physician

Dr. F. M. Edwards for 17 years treated scores of women for liver and bowel ailments. During these years he gave to his patients a prescription made of a few well-known vegetable ingredients mixed with olive oil, naming them Dr. Edwards' Olive Tablets, you will know them by their olive color.

These tablets are wonder-workers on the liver and bowels, which cause a normal action, carrying off the waste and poisonous matter in one's system.

If you have a pale face, sallow look, dull eyes, pimples, coated tongue, headaches, a listless, no-good feeling all out of sorts, inactive bowels, you take one of Dr. Edwards' Olive Tablets nightly for a time and note the pleasing results.

Thousands of women as well as men take Dr. Edwards' Olive Tablets—the successful substitute for calomel—now and then just to keep in the pink of condition. 10c and 25c per box. All druggists.

### M. J. GALHULY DEAD AT WHITE HALL

Prominent for Years in Pottery Business—Funeral Will be Held Saturday.

White Hall, Dec. 1.—M. J. Galhuly whose precarious condition as a result of a stroke of paralysis has been noted in the Journal, died at his home in White Hall at 5:30 a.m. Thursday. The stroke came upon him at Morrison, Mo., on Thursday of last week. He was brought home in an unconscious condition, and never regained consciousness.

Mr. Galhuly has been identified with various branches of the clay business in White Hall for thirty-six years, coming from Akron, Ohio, where he learned the potter's trade. On coming to White Hall he became a turner in the pottery then conducted by the late George E. Hill. Following this he turned ware in various local potteries until 1900, when he went to St. Louis to enter the branch office of the old Monmouth Pottery Co., where he remained for about four years, and then took up the territory of southern Missouri, Arkansas and Texas for the Western Stoneware Co., which had taken over the Monmouth Pottery Co. He remained with this concern until two years ago, since which time he has been commercial representative for A. D. Rueckgl & Son of White Hall.

Mr. Galhuly was a native of Akron, born September 25, 1856. He still has a brother and a sister residing in Akron. Two years after coming to White Hall, he and Miss Emily Worcester, daughter of the late Judge L. E. Worcester, were married, and they have since made their home in White Hall. Mrs. Galhuly and all the children survive. The children are H. W. Galhuly of White Hall, S. W. of Washington, D. C., and Mrs. R. E. Woolley of Schenectady, N. Y.

During all the years Mr. Galhuly spent his time at home he was identified with the White Hall band.

Funeral services will be held in All Saints' Catholic church in White Hall at 9 o'clock Sunday, conducted by Rev. Father Sheils. The interment will be in the White Hall cemetery.

### COAT AND SUIT SALE IN FULL BLAST AT HERMAN'S

#### HUNTER KILLED A COW

J. R. Wilson of Durbin vicinity is regretting the loss of a valuable cow shot, probably by a careless hunter. Mr. Wilson found her dead in the pasture and a bullet hole told the rest of the story. The probability is that some thoughtless hunter with a high class rifle shot some distance away and the ball descending killed the animal. A few years ago H. H. Massey lost a valuable colt in the same manner. Mr. Wilson can think of no one who has a grudge against him so it was probably the careless act of some sportsman enjoying a holiday at a great expense to another.

#### REVIVAL SERVICES CLOSE

The revival services at the Durbin M. E. church have closed after a two weeks campaign against sin and the results have been gratifying. The pastor, Rev. M. Keenan, has been assisted by Rev. Mr. Myers of Bath and much good has been accomplished.

#### REVIVAL SERVICES

AT LYNNVILLE  
Rev. L. R. Cronkhite, pastor of the Christian church at Lynnville, is conducting a series of revival meetings with good results. He is being assisted by Miss Gail Willite of Indiana, singing evangelist, and the meetings are well attended.

#### JULIAN PYATT PROMOTED

Julian Pyatt, who has for some time been employed at the Swift packing house branch in this city, has been transferred to Hannibal and made manager of the plant there. This is a fine advance for the young man and indicates the kind of work he has been doing.

#### MADE TRIP TO GREENE COUNTY

F. L. Riggs, manager of the local branch of the Hatfield Poultry establishment of Decatur, James Kee and Edgar Mills went down to Greene county in Mr. Riggs overland car to visit Mr. Riggs' brother, Herbert Riggs and enjoy Thanksgiving. They took their time hunting and bagged 115 rabbits as the result of their expedition.

Mrs. Ruth Brown has returned from a two months visit with relatives and friends in Toronto, Canada and other eastern cities. In Toronto she was the guest of her sister, Mrs. A. R. Porter, formerly Miss Ethel Brown.

### FARM NOTES

#### Next Week at Chicago.

A large number of Farm Bureau members have told me that they plan to be in Chicago next week to attend the International Live Stock Exposition. It is the best opportunity of the year to see the very best cattle, horses, sheep and hogs and to talk to the men who have been successful in breeding and feeding these animals for exhibition. All records have been broken in the number of entries for the show this year. As no show was held in 1914 and 1915 every one is anxious to see the show this year. It is a good opportunity for a farmer and his wife to take a vacation of the most profitable sort. City people naturally go to the country for vacations. Country people can find pleasure which interests them most in the city in the winter time, taking in just such an exhibition as this live stock show. It is a good chance for the boys to learn what can be done with live stock and to gain an inspiration which will make them successful live stock breeders in the future.

E. T. Robbins,  
Tazewell County Agricultural Agent.

**Big Stock Show Will Be Held**  
There has been fear expressed that the reported outbreak of foot and mouth disease would cause a postponement of the International Livestock show in Chicago. There is a great deal of doubt about any actual cases having been discovered and even if this should be true the International show will be held. H. E. Garrison of this county, who expects to exhibit Shorthorn cattle at the show, wrote the American Shorthorn Breeders association in Chicago for some definite information about the show. He received a letter yesterday from the secretary of the association stating that the show will be held at scheduled even tho it may prove desirable to bar from the exhibition cattle from the states of Nebraska, Missouri and Kansas.

**A Successful Farmer**  
After being away from the soil something like twenty years Edward Kunkle decided to undertake scratching the face of his mother earth again and so with small capital he rented the Morris Lee farm of 160 acres near New Berlin paying eight dollars cash rent. He decided to try listing instead of the orthodox manner of planting and put in his seed some six inches deep. He used six bushels to the acre of good quality white seed corn but doesn't know the name of it. He cultivated shallow four times and has most of the crop husked. A field of forty acres yielded 63 bushels to the acre, one of forty acres he estimates at fifty bushels. He sold several thousand bushels from the field at 85 cents. He has nine horses, four cows, 18 hogs and other stock.

**BARN BURNS THURSDAY**  
The fire department responded to an alarm from the residence of Antonio Oliver, 221 West Walnut street Thursday afternoon about 3 o'clock. Fire had in some manner started in the barn on the premises. It was a long run and the flames had gained such headway that the structure was almost destroyed. Chief Hunt estimates the loss at about \$200. It is not known whether or not Mr. Oliver carried insurance on the building.

**REVIVAL SERVICES CLOSE**

The revival services at the Durbin M. E. church have closed after a two weeks campaign against sin and the results have been gratifying. The pastor, Rev. M. Keenan, has been assisted by Rev. Mr. Myers of Bath and much good has been accomplished.
